#### PISA PREPARES YOU FOR YOUR CAREER IN **PHARMACY**

Taylor's Bachelor of Pharmacy with Honours and Bachelor of Pharmaceutical Science (Honours) are complemented with a Pharmaceutical Industry Student Adoption (PISA) programme, giving students the opportunity to work with leading pharmaceutical companies. It is an optional internship which provides hands-on training, industry mentorship, networking opportunities and more importantly grooms students into more holistic and future-ready graduates. Students also have the opportunity to network with PISA partners through joint CSR activities.

Our PISA partners include:

Johnson&Johnson

Through the PISA programme, I had the chance to intern at Roche and was given the opportunity to rotate to different departments such as Quality Assurance, Medical Affairs, and Regulatory Affairs. This allowed me to build my professional network by connecting with industry leaders. At the same time, I gained valuable insights on how industry pharmacists support frontliners in ensuring high quality medications are effectively accessed by patients, which gave me newfound appreciation for the pharmacy profession.

#### ANGELINE WAN JOEY ROCHE

Having the privilege of completing my internship at AstraZeneca was a truly enlightening journey. It provided me with an understanding of the intricate workings within a successful multinational pharmaceutical company. The inclusive and supportive work environment at the company added to the richness of the experience, making my PISA attachment one that was both insightful and fulfilling.

#### NANDHITA GYATRINI NAIR ASTRAZENECA

Blessed with the opportunity to be an intern in Abbott Malaysia via the PISA programme, I was exposed to the intricacies of managing the marketing of pharmaceutical products. This commercial aspect was something new for me and distinct from the clinical perspective I was used to. From devising promotional materials for healthcare professionals, participating in marketing campaigns, and assisting in research & creating brand plans, it was an astonishingly fun and enriching learning experience.

#### EMILY GOH ABBOTT

Experiencing the PISA program in Pfizer gave me a great overview of the role of regulatory affairs and managing the lifecycle of the product, both from a local and regional perspective. Seeing those concepts applied to real life scenarios provided an added dimension to my learning beyond my classes. It was an unmatched opportunity to explore the potential roles of pharmacists in pharmaceutical companies which will be helpful in my future career decision.

#### **GLOBAL EXPOSURE**

Student exchange programmes enable students to experience different cultures and gain global exposure to become more holistic graduates.

At Taylor's School of Pharmacy, I learned that pharmacists are not only the medication experts, but can also take up diverse roles in the pharmaceutical industry. I love the fact that there are extra opportunities like the Pharmaceutical Industry Student Adoption (PISA) and various industry-related subjects taught to us, which gives us a competitive edge when taking up roles in pharmaceutical companies after we graduate.

**Ng Yew Keong** Medical Science Liaison at Eisai Malaysia

I've had an amazing 4-year run at Taylor's University School of Pharmacy. The syllabus was inclusive & comprehensive as it really exposed the students to all the diverse roles & career paths of a pharmacist. The lecturers related their classroom teaching to real-life experiences & because of that, we were more prepared for the actual workforce.

**Loke Ren Zhang** Nuclear Pharmacist at Sunway Medical Centre Seberang Jaya

What a typical Pharmacy school would give, Taylor's University School of Pharmacy (TuSOP) gave me more. TuSOP gave me industrial insights in Pharmaceutical Industry Student Adoption (PISA) programme; an ever-evolving community for self and professional development in Taylor's University Pharmacy Students' Society (TuPSS); and knowledge beyond pharmacy practice in modules like Pharmaceutical Regulation, Pharmacoepidemiology Pharmacoeconomics. As I walked into the workforce fresh and inexperienced, my time at TuSOP kept me confident to grow and excel in the face of endless possibilities.

# WORLD-CLASS STANDARDS & FACILITIES

Within the Taylor'sphere™ we provide students with world class standards, facilities and environment. As such, our customised labs and facilities are independently audited by both the Standards and Industrial Research Institute of Malaysia (SIRIM), ensuring that the industry standards are met.

The sterile preparation suite is used to teach students the theories and skills related to the aseptic dispensing and preparation of injectables and other sterile preparations, mimicking those found in hospitals and the pharmaceutical industry. This suite is designed in accordance with industry standards to provide a stable cleanroom environment for the preparation of sterile products to prevent contamination and protect the integrity of the products. We're proud of the Aseptic Suite, as not all universities have one for their students to train in.

The mock dispensary is designed and fitted to the specifications of an active community pharmacy, used for all aspects of pharmacy practice, including medication dispensing, responding to symptoms, patient counselling and other health promotion activities. It is equipped with a wide range of real medications, home test kits such as pregnancy tests and glucose monitoring devices, as well as medical devices such as insulin pens and inhalers, providing students with hands-on experience that is reflective of real-world practice.
