“

I choose Taylor's because of the great things I heard from my seniors. Taylor's Lakeside Campus has a vibrant campus environment where it is not just a building, and the open space means that everyone can interact through fun activities. Additionally, University Placement Services and my lecturers helped me through the complex university application process, from essay writing to interview preparation.

“

Taylor's has a peer-to-peer programme, and I like the idea where students get to teach our friends, which I took part in as well. As for my university application, I was pretty lost at first, but I met with the University Placement Services and they guided me through the process. Taylor's also offers a wide range of extracurricular activities where I participated in Economics Case Study competition and was the Director of Design for an investment club.
